TARIFF FORMAT

- A. Sheet Numbering** – sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the Tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between Sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers** – Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the FPSC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. that the FPSC follows in their Tariff approval process, the most current sheet number on file with the Commission is not always the Tariff sheet in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** – There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(A).I.
 - 2.1.1.A.1.(A).I..(i).
 - 2.1.1.A.1.(A).I..(i).(1).
- D. Check Sheets** – When a Tariff filing is made with the FPSC, an updated check sheet accompanies the Tariff filing. The check sheet lists the sheets contained in the Tariff, with a cross reference to the current revision number. When new sheets are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels on some sheets). The Tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the FPSC.

Nor shall Interruption include the failure of any service or facilities provided by a common carrier or other entity other than the Carrier. Any Interruption allowance provided within this Tariff by Carrier shall not apply where service is interrupted by the negligence or willful act of the Customer, or where the Carrier, pursuant to the terms of this Tariff, terminates service because of non-payment of bills, unlawful or improper use of the Carrier's facilities or service, or any other reason covered by this Tariff or by applicable law.

- 2.3.14** The Customer and any Authorized Users, jointly and severally, shall indemnify and hold the company harmless from claims, loss, damage, expense (including attorney’s fees and court costs), or liability for patent or trademark infringement or other infringement of intellectual property rights arising from (1) combining (or using in connection) Company-provided services and equipment with any facilities, services, functions, or products provided by the Customer or authorized User or (2) use of services, functions, or products the Company furnished in a manner the Company did not contemplate and over which the Company exercises no control; and from all other claims, loss, damage, expense (including attorneys fees and court costs), or liability arising out of any commission or omission by the Customer or Authorized User in connection with the service, function, or product. In the event that any such infringing use is enjoined, the Customer or Authorized User at its expense, shall obtain immediately a dismissal or stay of such injunction, obtain a license or other agreement so as to extinguish the claim of infringement, terminate the claimed infringing use, or modify such combination so as to avoid any such infringement. In addition and without limitation, the Customer or Authorized User shall defend, on behalf of the Company and upon request by the Company, any suit brought or claim asserted against the company for any such infringement, damages, or other claims.

SECTION 2 – REGULATIONS, CONT'D.**2.3 Liability of the Company, Cont'd.**

2.3.15 The Customer releases, indemnifies and holds harmless the Company from any and all loss, claims, demands, suits or other action or any liability whether suffered, made instituted or asserted by the Customer or by any other person, caused or claimed to have been caused directly or indirectly by the publication of a nonpublished telephone number or the disclosure or nondisclosure of said number to any person. If any action of the Company results in the publication of the unauthorized disclosure of a nonpublished number, the Company will, at the customer's request, change the number without charge and refund any nonpublished number charges for the period of time during which the number was disclosed. For the purposes of this Tariff, nonpublished information is defined to include the name, address and telephone number of nonpublished Customers.

Such transfer or assignment shall only apply where there is no interruption of the use or location of service. 2.10 Taxes and Fees

The Company reserves the right to bill any and all applicable taxes in addition to normal telecommunications charges, including, but not limited to: Federal Excise Tax, State Sales Tax, Municipal Taxes, and Gross Receipts Tax. 5.5.1 Feature Descriptions

Call Forwarding – Fixed, Busy Line No Answer – This feature, when activated, redirects attempted terminating calls to another Customer-specified line. Call originating ability is not affected by Call Forwarding – Fixed, Busy Line No Answer. The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the Customer with the Call Forwarding – Fixed, Busy Line No Answer is billed for the forwarded leg of the call. Calls cannot be transferred to an International Direct Distance Dialing number.

Speed Calling – This feature allows a user to dial selected numbers by means of an abbreviated code. This feature is available in either an 8 number or a 30 number capacity. The Speed Calling list can only accommodate a number consisting of 15 digits or less.

Caller ID - Allows a Customer to see a caller's telephone number previewed on a display screen before the call is answered. Caller ID requires the use of specialized CPE not provided by the Company

Caller ID with Name – Allows a Customer to see a caller's name and number previewed on a display screen before the call is answered. Caller ID with Name requires the use of specialized CPE not provided by the Company.

Call Forwarding – A Customer activated feature that automatically transfers all incoming calls from the Customer's telephone number to another dialable telephone number until the Customer deactivates the feature. If forwarded to a long distance number the Subscriber will incur the long distance charges.

Call Trace – Allows a called party to initiate an automatic trace of the last call received. Call Trace is available on a usage basis only.

Call Blocking – Allows Customer to block calls from different telephone numbers. A screening list is created by Customer either by adding the last number associated with the line (incoming or outgoing) or by pre-selecting the telephone number to be blocked. Callers from such numbers hear an announcement that the calling party is not accepting calls and Customer's phone will not ring.

SECTION 5 – MISCELLANEOUS SERVICES AND RATES (Cont'd)**5.5 Custom Calling Features****5.5.1 Feature Descriptions (Cont'd)**

Call Waiting - Call Waiting provides a tone signal to indicate to a Customer already engaged in a telephone call that a second caller is attempting to dial in. This feature permits the Customer to place the first call on hold, answer the second call and then alternate between both calls.

Call Waiting with Caller ID with Name – Call Waiting with Caller ID with Name provides a tone signal to indicate to a Customer already engaged in a telephone call that a second caller is attempting to dial in and allows a Customer to see a caller's name and number previewed on a display screen. This feature permits the Customer to place the first call on hold, answer the second call and then alternate between both calls.

Three Way Calling – Permits the Customer to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference.

Call Return - Allows Customer to automatically dial the number of last incoming call, whether or not Customer answered phone.

Anonymous Call Rejection - Allows you to refuse calls from those who have blocked their numbers.

Selective Call Rejection – Allows you to refuse calls from selected list of numbers.

Repeat/Auto Dial – A feature that, when activated, automatically checks a busy number and when the line is free, rings the Customer back and completes the call.

Caller Identification Blocking: Allows the name and number of the calling party to be blocked from being transmitted when placing outbound calls.

Per Call Blocking: To activate per-call blocking, a Customer dials a special code prior to placing a call. Blocking will be activated for that outgoing call only. There is no charge for using per call blocking, and it is provided on an unlimited basis.

Per Line Blocking: When blocking is established on the line, it can be deactivated by dialing a code before each call. This one call unblock allows the name and/or number to be sent for that one call only. There is no charge for per line blocking.

SECTION 5 – MISCELLANEOUS SERVICES AND RATES (Cont'd)**5.6 Directory Assistance and Operator Services**

A Customer may obtain assistance, for a charge, in determining a telephone number by dialing Directory Assistance Service.

5.6.1 Basic Directory Assistance

The rates specified following apply when Customers request Company assistance in determining telephone numbers of Customers who are located within the State.

A maximum of two (2) requested telephone numbers are allowed per call.

A. Exemptions

A business or residence main telephone exchange line may be registered for exemption from Directory Assistance charges where one of the users of the line is considered to be legally blind, visually or physically handicapped, or where the user's handicap prevents the dialing of a telephone in a conventional manner or permits only the dialing of "0." Requests for exemption must be accompanied by certification of the handicap. Acceptable certifications include those signed by a physician, issued by a state agency qualified to certify such handicaps or pre-existing certifications establishing visual or physical inability to use a directory such as those which qualify the handicapped person for an income tax exemption or social security benefits on the basis of blindness or physical disability or for use of the facilities of any agency for the blind.

Emergency Interruption is only permitted in cases where the calling party indicates an emergency exists and requests interruption and is performed once the line status has been determined through the Busy Line Verification process.

If the Customer has the operator interrupt a call, both the Busy Line Verification and the Emergency Interrupt charge will apply.

No charge will apply when the calling party advises that the call is to or from an official public emergency agency. Busy Verification and Interrupt Service is furnished where and to the extent that facilities permit.

5.8 Directory Listing Service

5.8.1 General

The following rates and regulations apply to standard listings in light face type in the white pages (alphabetical section) of the telephone directory and to the Directory Assistance records of the Company.

Directory listings are limited to such information as is essential to the identification of the listed party. The listing of a service, commodity, or trade name is not permitted unless it is the name, or an integral part of the name, under which the Customer does business.

A listing is limited to one line in the directory, except where in the judgment of the Company, more than one line is required to identify the Customer properly. In such cases, the additional lines required are provided at no extra charge.

Dual name listings are permitted as a regular directory listing for residential service.

Listing services are available with all classes of main telephone exchange service.

5.8.2 Listings

A. Primary Listing

One listing, termed the primary listing, is included with each exchange access line and each joint user.

SECTION 5 – MISCELLANEOUS SERVICES AND RATES (Cont'd)**5.8 Directory Listing Service (Cont'd)****5.8.2 Listings (Cont'd)****B. Additional Listings**

Additional listings may be the listings of individual names of the Customer and members of the Customer's household, tenants of residential Customers who lease the Customer's premises for less than one year and do not occupy the premises at the same time as the Customer, members of a firm, officers of a corporation, employees of the Customer or other persons associated in business with the Customer, a business which the Customer owns and cross reference and alternate number listings.

Ordinarily, all additional listings are of the same address and telephone number as the primary listings, except as provided for joint user and alternate number listings.

Special Types of Additional Listings include:

Duplicate Listings – A listing of another name by which the customer is known, such as a nickname, abbreviated name, a name commonly spelled in more than one way, and a name consisting of several words which the public commonly rearranges. The listing may be complete or in a cross-reference form.

Alternate Telephone Numbers – A listing which refers calling parties to another telephone number at certain hours or on certain days or in case no answer is received on the call to the primary number.

SECTION 5 – MISCELLANEOUS SERVICES AND RATES (Cont'd)**5.8 Directory Listing Service (Cont'd)****5.8.2 Listings (Cont'd)****C. Nonpublished Service**

The telephone numbers of nonpublished service are not listed in either the Company's alphabetical directory or Directory Assistance records available to the general public.

Incoming calls to nonpublished service will be completed by the Company only when the calling party places the call by number, and no exception will be made, nor will the Customer be called to determine whether he/she wishes to receive the call, even though it appears that the calling party desires the connection because of an emergency.

The Company is not responsible for any claims made or liability arising from failure to receive calls because of this arrangement.

The Subscriber indemnifies (i.e., promises to reimburse the Company for any amount the Company must pay as a result of) and save the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-published service or the disclosing of said number to any person.

D. Nonlisted Service

Nonlisted service means the Customer's telephone number is not listed in the directory, but it does appear in the Company's Directory Assistance Records.

The Company is not responsible for any claims made or liability arising from failure to receive calls because of this arrangement.

The Subscriber indemnifies (i.e., promises to reimburse the Company for any amount the Company must pay as a result of) and save the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a nonlisted service.

Carrier Presubscription is a procedure whereby a Customer designates to the Company the carrier which the Customer wishes to be the carrier of choice for intraLATA and interLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. 5.10 Telecommunications Relay Service

For calls received from the relay service, the Company will when billing relay calls discount relay service calls by 50 percent off of the otherwise applicable rate for a voice non-relay call except that where either the calling or called party indicates that either party is both hearing and visually impaired, the call shall be discounted 60 percent off of the otherwise applicable rate for a voice non-relay call.
