

California Teleconnect Fund

Combined TPx discounts and CTF subsidies can reduce your existing telecommunications costs by up to 80%.

Let us help you serve your communities better

TPx can help your organization take full advantage of the latest communications technologies by managing the process of applying and receiving discounted telecommunications services under the California Teleconnect Fund (CTF) Program for you.

We make it simpler for you to comply with the CTF's processes and equip your organization with the same advanced capabilities that we bring to 40,000 business customers — often at a significant savings over your existing telecommunications costs.

California Teleconnect Fund

CTF is a program of the California Public Utilities Commission (CPUC) that was created in 1997 to provide discounts on telecommunications services to schools, libraries, health care institutions and certain community-based organizations (CBOs) in California. CBOs with programmatic activity in the areas of technology, health care, job training, job placement, and educational instruction qualify for the discounts and are required to submit an application to the CPUC for approval. Program discounts create new opportunities for qualified CBOs to offer telecommunications technology, training, and other resources to the communities they serve.

CTF program discounts often allow qualified organizations to upgrade their networks or buy a new phone system that offers improved efficiency without additional costs.

Leveraging CTF subsidies with TPx

- TPx is a CTF approved telecommunications vendor and we are experts in providing application assistance to not-for-profit organizations.
- TPx's staff of CTF experts assists qualified organizations with telecommunications plan consulting, billing and technical support. We give you a single point of contact and can provide a single bill for all your telecommunications needs.
- Combined TPx discounts and CTF subsidies can reduce your existing telecommunications costs by up to 80%.
- TPx's CTF program discounts often allow qualified organizations to upgrade their networks or buy a new phone system that offers improved efficiency without any additional costs.
- TPx offers voice and data packages that include the robust technology and support typically reserved for large enterprise business budgets.
- TPx bundles voice and data services to address the specific needs of small and medium businesses and organizations like yours. We are the multilocation experts.
