

# Conference Central

Ever forgotten to schedule a conference call? Tired of paying expensive rates and managing multiple invoices? Simplify things.

Try Conference Central, a worry-free reservationless audio conference service, easy-to-use, flexible and secure. Consolidate your conference expenses and receive a single invoice from TPx for all your telecom needs. You activate as many sub-conference accounts as needed and choose a plan that is suitable for your calling pattern. There is no activation or maintenance charge for each established sub-conference account. Every conference host is provided with a dedicated access number and a suite of user-friendly features:

- **Reservationless toll-free conference service<sup>1</sup>** Dedicated dial-in number and unique passcode provide you the convenience of sharing info anywhere, anytime, 24/7.
- **Cost effective service** We offer flexible options and you only pay for the minutes used—as little as \$0.08 per minute.

- **Feature-rich conferencing** Manage the features at your finger tips with keypad shortcuts. Record the conversation, lock the conference, or dial an ad hoc participant.
- **24/7 dedicated support** Technical support team available 24/7 ready to assist and troubleshoot any issues.

<sup>1</sup> International conference participants must dial a U.S. local access number. Callers accessing the local number will be responsible for LD tolls charged by their local phone company and the connection is charged to you at the same rates as a toll-free call.
