

TOP WAYS TO FIGHT CYBER ADVERSARIES

Educate your staff by deploying quality cybersecurity awareness training.

Have a cybersecurity strategy that combines market-leading technology with seasoned expertise.

A solid endpoint security, firewall, and back up and recovery are a baseline.

Two-factor authentication and solid password controls are key for each employee.

Make sure staff has the appropriate level of access.

Test... test... test!

Make sure you have good visibility into an entire network.

Ensure your network is being monitored 24/7/365.

Remember...cybersecurity is where prevention beats mitigation.

Make sure your plan also covers cyber threat detection and response

When it comes to cybersecurity, inaction can be costly. Talk to a TPx specialist to see how we can help.
