Leading technology paired with IT talent at your fingertips 24/7. With TPx, you're in great company. With technology from market leaders like Fortinet, Cisco, VMware and more — managed by our seasoned IT staff — you get the best of both worlds. Augment your IT team instantly without worrying about talent shortages and skill gaps.

Under pressure to cut costs? Outsourcing to TPx is often quite a bit cheaper than doing it in-house. TPx delivers technology solutions at fixed costs to improve IT budget control and visibility.

A vendor you can trust TPx helps protect and connect over 18,000 customers, including 1,200 finance organizations. We are big enough to get the job done yet small enough to be agile. Our solutions are powered by market-leading technology and our staff is continuously trained to maintain a high level of expertise.

In 2021, the finance sector experienced **the most cyber attacks** for the fourth year in a row, with the second highest average total cost of a data breach: \$5.72M. (Source: IBM)

Trusted by 1,200 financial customers, TPx offers a cost-effective way to improve your cybersecurity, connectivity, and collaboration.
