Starting price per month⁴	\$933	\$1,283	\$1,867⁵	

¹ A review of the T&Cs document that the third-party service provider provided to the customer.

² Policies included: System Security Plan, Access Control, Asset Management, Encryption, MFA, Data Retention/Disposal, Change Management, Log/Activity Monitoring, Incident Response Plan.

³ Does not include technical implementation work to deploy or configure controls. For example, TPx will not configure logging for Windows authentication or implement Multi Factor Authentication (MFA) for a customer.

⁴ Based on a 12-month pricing

⁵ \$1,478 if the contract is for 36 months

⁶ Cost varies based on the number of IPs

⁷ A one-time cost if customer does not have a "Create" plan but needs an incident response plan
