Regulatory Solutions Overview

Solution	Description	Billable?	Relevant Regulations
Cloud-to-Cloud Backup	One-click restore for Microsoft 365 (Exchange, OneDrive, SharePoint, Groups, and Teams)	Yes	
CTAP	Fast and free assessment to identify security risks and network usage	No	
DNS Protection	Safeguard any device that accesses the Internet by blocking known malicious threats	Yes	HIPAA, PCI-DSS, GDPR
Endpoint Mgmt & Security	Protecting endpoints with patch management, next-gen antivirus, RMM, MDR & more	Yes	HIPAA, PCI-DSS, GDPR
Firewall	Next-gen firewall with UTM (unified threat management), VPN, MDR	Yes	**PCI-DSS**, HIPAA, GDPR
FTC Safeguards Advisory Services	TPx creates, owns & maintains security program per FTC Safeguards requirements	Yes	**FTC Safeguards**
Gap Assessment	Evaluate company's security posture, compare it against industry standards and best practices	Yes	**FTC Safeguards** HIPAA, PCI-DSS, GDPR
Hybrid Backup	On-premises Datto backup with replication to secure cloud	Yes	**HIPAA**, PCI-DSS, GDPR
Inbox Detection & Response	Microsoft 365 plug in to enable users to validate emails' authenticity with one click	Yes	
Incident Response Plan	Create a plan outlining how an organization would respond to and manage cybersecurity incidents	Yes	**FTC Safeguards** **HIPAA**, PCI-DSS, GDPR
Network Security Assessment	Evaluate your organization's network security posture and profile	Yes	PCI-DSS
Penetration Scan	Shows how exploiting a vulnerability could result in a significant impact on the environment	Yes	**FTC Safeguards** HIPAA, PCI-DSS, GDPR
Ransomware Assessment	In-depth review of company's readiness in responding to a ransomware attack	Yes	
Ransomware Evaluation	Free 30-minute session with our security SME, with a high level output of areas in need of an attention	No	
Security Awareness Training*	Regular training courses with phishing simulations, following NIST guidelines	Yes	**HIPAA, FTC Safeguards, PCI-DSS**
Security Awareness Townhall	30 minute virtual session to educate staff on best cyber hygiene practices	No	
Vulnerability Scan	Evaluate devices connected to the network to identify vulnerabilities present due to open ports, missing patches, etc.	Yes	**FTC Safeguards** HIPAA, PCI-DSS, GDPR
Wireless Security Assessment	Evaluate your org's wireless infrastructure and configuration, security posture, and functional capabilities	Yes	PCI-DSS

* We have a sample phishing course available for free for up to 5 users

If bolded, the regulation requires that solution. If not, it is only recommended. All security solutions can qualify for the "recommended" category with the right positioning.

Standard	Vertical/Industry
HIPAA	Healthcare providers (hospitals, doctors' offices, etc.) Healthcare associates (data processing firms, health insurance firms, healthcare software services etc.)
PCI-DSS	Retail and e-commerce Any company that stores/transmits cardholder data.
GDPR	Any organization that conducts business in the European Union in some way or interacts with EU citizens
FTC Safeguards	Finance (mortgage lenders, payday lenders, finance companies, mortgage brokers, account servicers, check cashers, wire transferors, collection agencies, credit counselors and other financial advisors and tax preparation firms); also car dealers, education & other companies that participate in significant financial activities like issuing loans or own credit cards.
