

Work Smarter with AI. Scale Securely.

AI-powered productivity, enterprise security, identity controls, and agent governance in one integrated suite—now at promotional pricing through TPx.

Microsoft 365 E7 “Frontier” expands Microsoft 365 E5 from secure productivity to AI-powered productivity at scale. It delivers the E5 foundation customers trust, plus the Copilot capabilities, identity enforcement, and agent governance needed to help employees work faster while IT protects the business.

Discount applies for the full 1-year term. Ask your TPx representative to confirm seat count and eligibility.

What You Get

Microsoft 365 E5 delivers

- ✓ Strengthen security across users, devices, apps, email, and data
- ✓ Improve productivity with advanced collaboration, analytics, and automation tools
- ✓ Reduce IT complexity by unifying productivity, security, compliance, and device management
- ✓ Support smarter decisions with built-in analytics and business intelligence

E7 “Frontier” adds

- ✓ Accelerate AI-powered productivity in everyday work
- ✓ Help employees summarize information, create content, automate tasks, and surface knowledge faster
- ✓ Give IT stronger control over AI adoption, identity, access, and governance
- ✓ Scale AI securely across users, workflows, data, and AI agents

END-OF-TERM PRICING

Promotional licenses revert to standard E7 “Frontier” pricing unless renewed for another one-year term during the promo period, in which case promo pricing carries into the next full term.

TPx can assess your current licensing position and recommend the right path from E5 to E7 “Frontier.”
