

Welcome to O1 Communications

This document is provided as an introduction to using O1's value-added T1 features.

Features and Descriptions	Instructions
Anonymous Call Rejection Allows you to reject calls from callers who have activated a blocking option that prevents the display of their name/number.	To activate, press *77. Your caller will hear a recording instructing them on how to complete the call. To deactivate, press *87.
Call Forwarding Forwards incoming calls to an alternate number that you select manually.	To activate, press *72 then the number you would like your call forwarded to. To deactivate, press *73.
Call Forward - Busy Line When your line is busy, the call is transferred to another specific line.	This feature is programmed by O1
Call Forward – Don't Answer This feature automatically transfers unanswered calls to a predetermined number after a predetermined number of rings.	This feature is programmed by O1
Caller ID Uses a screen display attached to your phone that lets you see who is calling before you answer by displaying the caller's name and number.	This feature is programmed by O1
Call Return Automatically dials back your last caller.	To activate, press *69.
